

Diamond Wire

PRODUCT DATASHEET DIAMOND WIRE

Continuing the tradition of providing products with the highest level of quality and performance available, ICS is proud to offer the next generation of diamond wire, specifically designed for the applications of cutting concrete, concrete with reinforcement and steel. ICS diamond wire is manufactured in a state-of-the-art facility with precision specifications to deliver the best in service, economy and performance.

Brazed Wire

From pure steel to reinforced concrete, brazed wire optimized performance for long life and fast cutting speed.

Hybrid Wire

Optimized for performance, long life and fast cutting, this sintered, multilayer brazed hybrid wire cuts the most demanding materials.

Sintered Wire

Designed to provide smooth operation and extremely efficient use of the diamonds. A proven and economical way to cut fast in concrete and concrete with light steel

Electroplated Wire

Offering several options for cutting a wide range of materials. The proprietary design efficiently uses diamonds that are tuned to each unique application allowing you to optimize your wire sawing operations.
